

**ANTONIO BUSQUETS,
M.D.**

PLASTIC SURGEON

PROFILE

El cirujano Antonio Busquets es el primer puertorriqueño en ser graduado en el programa de Cirugía Plástica y Reconstructiva de Emory University, uno de los programas más distinguidos de la nación y más reconocida mundialmente.

Dr. Busquets fue entrenado por los cirujanos plásticos con más renombre en el mundo, tales como Dr. Josh Jurkeiwicz, considerado el Padre de la Cirugía Plástica en Estados Unidos, Dr. T. Roderic Hester, inventor de una técnica endoscópica facial "Mid Face Lift", Dr. Foad Nahal, presidente del "American Society Aesthetics Plastic Surgery" y autor de múltiples libros, Dr. Clinton D. McCord, fundador de la sociedad de Cirugía Oculopástica en Estados Unidos, entre otros. El Dr. Busquets fue el Jefe de Residentes en Cirugía Plástica y Reconstructiva.

Antonio Busquets realizó su bachillerato en "Human Biology" en la Universidad de Stanford en California. Cursó medicina y practicó cirugía general en la Universidad de Puerto Rico Recinto de Ciencias Médicas. Publicó varios artículos de investigación y ganó el primer lugar en el foro Rafucchi de la Investigación. Revalidó en Cirugía Plástica y General convirtiéndose en "Double Board Certified in Plastic & General Surgery". Dr. Busquets labora en su práctica privada y dona parte de su tiempo a varias misiones filantrópicas en Puerto Rico, El Salvador, la Reserva de Indios Navajos en Nuevo México y República Dominicana.
